## Free KS3 Maths & Science Revision Checklist (Years 7–9)

Use this checklist for 10–15 minute revision sessions that build confidence and progress.

### ***Maths***

- Write down 3 key methods you learned this week (e.g., fractions → percentages).
- Do 5 short questions: 2 easy, 2 medium, 1 challenge.
- Check answers carefully and correct mistakes in a different colour.
- Create one exam-style question for a friend (or future you).

### ***Science***

- Learn 6 keywords and write a sentence using each.
- Draw and label one diagram (cells, circuits, particle model, etc.).
- Practise explaining a process out loud in 60 seconds.
- Answer 3 exam-style questions and underline command words (describe/explain).

**Progress tip:** If a topic feels hard, break it into smaller steps and repeat over several short sessions.
